Instruction Guide

Device Anatomy

- 1 - Mouthpiece
- 2 - Air Intake Valves
- 3 - LED Charge
- 4 - LED Temperature Indicator

Charging

1. Plug charging adapter into USB port and the other end of the cable into the unit.
2. LED indicator lights

RED = unit is charging

GREEN = battery is fully charged

Operating Instructions

1. Power On/Off

Click button 5 times in 3 seconds to power on/off the vaporizer.

2. Set Temperature

Press button for 3 seconds to set temperature. The button will remain red until it reaches the desired temperature. The LED indicator will turn colors based upon the temperature setting.

red = 360F **green** = 380F **blue** = 420F

3. Low Voltage Alarm

Button blinks **red** five times when voltage is low, then powers off.

4. Safeguard

After the heating process begins, the vaporizer powers off automatically after 10 minutes.

Preparing the Unit

1. Fully charge the unit.
2. Push the mouthpiece with your thumb to expose the heating chamber.
3. Grind tobacco if needed and place inside heating chamber. Do not overfill or pack too tightly as this will restrict airflow and produce negative results.

Of Note

1. *A slow and steady inhale will produce the best results.*
2. *If you're unsatisfied with the amount of vapor being produced, try raising the temperature. If the vapor is too thick, try reducing the temperature.*

Cleaning Instructions

1. Use only the included brush to clean material from the chamber. You may dampen the brush with water, but do not use cleaning solutions.
2. Unscrew screen, and clean or replace as needed.

WARNING:

This product is intended for use by persons of legal age or older. Not intended for children, women who are pregnant or breast feeding, or persons at risk of heart disease, high blood pressure, diabetes, or taking medicine for depression or asthma. This product is not a smoking cessation product and has not been tested as such. Nicotine is addictive and habit forming, and it is very toxic by inhalation, in contact with the skin, or if swallowed. Nicotine can increase your heart rate and blood pressure and cause dizziness, nausea, and stomach pain. Inhalation of this product may aggravate existing respiratory conditions. Ingestion of the non-vaporized concentrated ingredients in the chamber can be poisonous.

CA Proposition 65 WARNING:

This product contains a chemical known to the State of California to cause birth defects or other reproductive harm.

**The U.S. Food and Drug Administration has not determined that any tobacco product presents less risk compared to any other tobacco product.*

For tobacco product consumers concerned about the health effects from tobacco product use, the best thing to do is quit.
